7. National/Tactical Interface

25X1 [redacted] met with JCS Action Officer, Capt. Dyer, on [redacted] 25X1
3 January and presented him with a matrix (per his request) of CCP sub-elements arrayed against DCID 1/2 Objectives. Matrix served to emphasize the impracticality of attempting to identify individual assets at the Program Element level. During discussions with Dyer it was apparent that services are becoming more xenophobic regarding what they consider is DCI enroachment into areas of tactical resources. Capt. Dyer stated that services were concerned that emphasis on intelligence resources was centered solely on those of Defense and that this, in effect, pitted National Defense against Tactical Defense while other parts of the NIP were not being considered. Offer was therefore made by ICS rep to prepare two other matrixes using CIA and State programs arrayed in some fashion similar to that of CCP. Research and Analysis Group, MPRRG will assist.

Still appears to be basic communication problem regarding methodology to be used in tackling National/Tactical problem. It was suggested that Capt. Dyer sound out services regarding inclusion of ICS rep as observor at next Action Officer meeting. Dyer will do but prospects probably bleak.

Next meeting with Dyer tentatively scheduled 8 January.
Action Officer: MPRRG/[redacted] 25X1

8. Bigot Lists

The DCI returned the proposed memorandum for USIB [redacted] 25X1
principals sent to him on December 26, indicating he wanted to get the Bigot List System established first and then feed activities into it gradually. A D/DCI/IC memorandum of 2 January forwarded the correspondence to the CIA Director of Security for action. No further IC Staff action is expected. Action
